

Thank you. Here is your copy.

Three short steps get your planner into Notion.

1

Pick your edition

Your purchase includes both. Use the one that matches your university, or keep both.

US edition

US English, Sunday to Saturday weeks, month-day dates, 12-hour time, letter grades with a credit-weighted 4.0 GPA, and a dollar budget.

International edition

British English, Monday to Sunday weeks, day-month dates, 24-hour time, percentage grades with a 0-5 scale and a semester average, and a euro budget.

Duplicate it into your Notion

Open the link, sign in to Notion (a free account works), press **Duplicate** at the top right and choose your workspace. On a phone, open the menu first. Duplicate from the page the link opens, not from a sub-page, so every database, page and painting comes with it.

3

Open Start Here

Follow its three steps. It takes about ten minutes, and a sample semester shows how everything connects. When you're ready, run **Clean Start** to remove the sample rows and add your own courses.

Works on Notion's Free plan

On desktop, on the web and in the Notion mobile apps, in light and dark mode.

Your licence

For one person. Customise it as much as you like, but please don't resell it, share your link or republish the template or its artwork.

Free updates

Your copy never changes on its own. When a new version comes out, open your link again and duplicate it. A new semester is a good moment to switch.
