Duplicate it into your Notion

Open the link, sign in to Notion (a free account works), press **Duplicate** at the top right and choose your workspace. On a phone, open the menu first. Duplicate from the page the link opens, not from a sub-page, so every database, page and photo comes with it.

3

Open Start here

Follow its three tabs: Set up, Daily use and Make it yours. Sample rows show how everything connects. Every one has **Sample** checked, so when you're ready, filter by Sample and delete them.

Works on Notion's Free plan

On desktop, on the web and in the Notion mobile apps, in light and dark mode.

Your licence

For one person. Customise it as much as you like, but please don't resell it, share your link or republish the template.

Free updates

Your copy never changes on its own. When a new version comes out, open your link again and duplicate it.
